### The U.S. Consumer Product Safety Commission

As of February 10, 2009 the new requirements of the Consumer Product Safety Improvement Act states children's products cannot be sold if they contain more than 200 parts per million total lead. Sellers of USED children's products, such as thrift stores and consignment stores, are not required to certify that those products meet the new lead limits, phthalates standard or new toy standards.

Messiah Moravian Preschool or you is not required to test, but if you have any reasonable suspicion that the items you are considering donating may contain impermissible levels of lead or phthalates, then please dispose of the items.

Messiah Moravian Preschool will have the right to refuse any item that falls within this law with the CPSC.
